BUSINESS OVERVIEW:

This was a transformative year for TechCorp International, marked by significant growth across all business segments. Our strategic investments in research and development have yielded impressive returns, driving a 22% increase in year-over-year revenue. The company successfully expanded into three new international markets, contributing to our robust financial performance. Our net income margin improved to 18%, reflecting enhanced operational efficiency and cost management initiatives. Looking ahead, we remain committed to innovation and market expansion to sustain our growth trajectory.
